EDUCATION

<i>Georgetown University School of Medicine – Washington, DC</i>	2017-Present
Doctor of Medicine Expected: May 2022 Population Health Scholars Track	
<i>University of California, Los Angeles Extension – Los Angeles, CA</i>	2014-2016
Pre-medical Certificate	
<i>University of California, Berkeley – Berkeley, CA</i>	2009-2013
Bachelor of Arts, Interdisciplinary Studies	

RESEARCH

<i>MedStar Washington Hospital Center - Washington DC</i>	2019-2020
COVID-19 Database MedStar Health Assisted in the creation of RedCap database for COVID patients at MedStar medical facilities. Conducted de-identified data extraction. PI: MedStar Faculty	
Food Insecurity and Insulin Use in Hyperglycemic Patients Presenting to the Emergency Department Designed study measuring food insecurity in hyperglycemic patients. Established resources/guides for patients who screened positive for food insecurity PI: Munish Goyal, MD	
<i>Department of Neurology, USC Keck School of Medicine - Los Angeles, CA</i>	2014-2016
Stroke, TIA, and Traumatic Brain Injury Quality Improvement Projects Created RedCap data for projects in the care of traumatic brain injury Collected blood samples, and conducted post-treatment follow up surveys PI: Nerses Sanossian, MD and Natasha Renda, MD	
Developing Neurology at the University of Health Sciences – Phnom Penh, Cambodia Assisted in translation, coordination, data collection of effectiveness of teaching Cambodian medical students with the goal of developing the first Neurology Program in the country. PI: Soma Sahai-Srivastava, MD, and Brian Wong, MD	
Field Administration Stroke Therapy (FAST-BP) Phase 2 Trial of Transdermal Nitroglycerin Patch in Hypertensive Stroke Patients in the Pre-Hospital Setting, coordinated study, and collaborated with paramedics' aspects of study protocol PI: Nerses Sanossian, MD	

The 360 Wellness Center, University of California, San Francisco (UCSF)

2012-2013

Telehealth Implementation in the Urban Setting

Awarded \$3,000 grant from UCSF Collaborative Research Network to organize non-English speaking community focus groups in the Tenderloin District of San Francisco on use of Telemedicine in the community setting in partnership with academic medical centers

Used Transana for Qualitative Data Analysis

PI: Malcolm John, MD

Prevention Research Center - Berkeley, CA

2011-2012

Cultural norms regarding alcohol use among two generations of Cambodian Americans.

I learned the principles behind community based participatory research by helping with survey data on various projects. I interviewed members of the Cambodian community (in Khmer) in Oakland on topics of community violence, alcohol consumption, and tobacco use.

PI: Juliet Lee, PhD

PROFESSIONAL EXPERIENCE

Department of Neurology, Keck School of Medicine of USC – Los Angeles, CA 2013-2016 Project Specialist

As a project specialist, I was involved in various research projects, health outreach events regarding stroke awareness and prevention, and helped with ACGME Accreditation of the Vascular Neurology Fellowship

The 360 Wellness Center at UCSF - San Francisco, CA 2012-2013 Research Assistant

I worked on developing a research project, applied for grants, and collaborated with community health organizations to determine the feasibility of implementing Telehealth support to address transportation and language barriers in San Francisco.

LEADERSHIP AND SERVICE

Georgetown Experimental Medical Studies (GEMS) Mentor 2020-2021

GEMS Program is a post-baccalaureate program designed to equip under-represented and disadvantaged students for success in medical education.

Martha's Table 2019-Present

Assisted in grocery distribution, teaching cooking and health lessons to elementary school students at risk for food insecurity

Christian Medical and Dental Association 2018-2019

Led Bible Study twice a month for medical and graduate students

GUSOM Generation I Mentor Program 2018-2019

Organized and matched 18 mentor/mentee pairs for first generation medical students

Georgetown Medical AIDS Advocacy Network 2018

Tested patients in the Emergency Department at Georgetown for opt-out HIV testing

Khmer Alumni Association 2015-2016

Mentored high school seniors, before becoming first in their families to attend college

Volunteer Health Interpreters Organization 2012-2013

Help interpret Khmer at local health events, and advocated for materials in Khmer for non-English speaking patients

INTERESTS

Developing medical education in developing countries, cooking (Cambodian, Korean, Cajun, Italian), running, rowing
